

Laure Millet

Head of Social Affairs and Regional Development

Laure Millet is Head of Social Affairs and Regional Development at Institut Montaigne since February 2023. She joined the Institute in 2018 as Head of the Health Program.

As part of this program, she contributes to a variety of projects related to digital, therapeutic and organizational innovation in the French healthcare system.

At the same time, she has organized several participatory workshops on public policies in mental health and regularly speaks at conferences to present the work of the healthcare program.

Before joining Institut Montaigne, Laure Millet was a project manager at the University of Paris Descartes, in the iLumens digital simulation department. She worked on the challenges of simulation in health, innovative training for health professionals and artificial intelligence. She also worked as a consultant for a start-up developing medical training in virtual reality.

Laure Millet holds a degree in economics from Sciences Po Paris and a degree in philosophy from the University of Paris Nanterre. She spent part of her studies in Singapore, at the Nanyang Technological University.

Laure was a member of the [counter-expertise](#) committee for the PariSanté Campus project, as part of missions guided by the Secretary General for investment.
